HOW TO SELECT YOUR COLOR AND UPHOLSTERY

On the car model pages in this book you'll find lists showing all colors available for each model. Samples of these colors together with a code letter for each are shown on the inside flap on the last page of the book. When you have decided on a model and color, just locate the color code letter in the appropriate column on these pages. You'll see easily which upholsteries are available with the color you wish.

*Also available on Galaxie 500 Hardtops
